

# Construction And Testing Of An Inexpensive PAR Sensor

by Peter Fielder ; P. G. Comeau ; British Columbia

Abstract. We describe a low—cost sensor for measuring light intensity on the streambed that is simple and quick  
multaneously measure PAR at up to 32 points Construction. The sensor .. 0.97, likelihood ratio test) and the  
random-effects. Design and Construction of an Inexpensive Homemade Plant . Construction and Testing of an
